This is a practice page.

Okay, this is a trial start in a new notebook with the new ~~Pen~~ Livescribe Pen

Okay, so we try again after turning it on - so first time recording w/ this Pen.

I see already that I talk faster than I write. So how do folks do that for pencasts - talk slower? Outline? Not full sentences?

After 1/2 hr of watching some how-to videos, I have a lot of ideas - esp. I think I'll like this as it's smaller than a SmartBoard that I can't take home.

Okay - get here + try to upload somehow.
